

October 16, 2018

Todd Brunner
Principal
Sugar Creek Elementary School
420 Church Avenue
Verona, WI 53593

Dear Principal Brunner:

Congratulations on receiving a Gold level Wisconsin School Health Award. Receiving this award signifies Sugar Creek Elementary School's commitment to providing students with the knowledge and skills to make healthy decisions that contribute to their academic success. I commend your school for having health and safety policies and environments, health education, physical education and other physical activity programs, nutrition services, family and community involvement, and health promotion for staff.

Two staff members from your school are cordially invited to attend the Wisconsin School Health Award Ceremony on December 5, 2018, from 5:30p.m. to 7:30p.m. in Sandstone 1456 at the Wilderness Resort as part of the Building the Heart of Successful Schools Conference (BHSS). In addition, a team of two to four members (school or district administrator, school staff member who coordinates health initiatives, local nutrition and physical activity coalition member) are invited to attend the Healthier Schools Workshop (HSW) for free on December 5th from 7:45a.m. to 3:15p.m. Registration for, and additional information about, the BHSS conference and HSW is located at: <https://dpi.wi.gov/sspw/conference>.

One round-trip mileage, and two hotel rooms for the evening of December 5 will be reimbursed according to state guidelines. Please visit <https://goo.gl/forms/GWUqMq3MPiB1EpBb2> to register for the Award Presentation Ceremony. Please note that reimbursement will not occur until after the event and will be sent to your district under the heading WI School Health Award. We would like to thank the Children's Hospital of Wisconsin in partnership with Kohl's for their generous financial support of these awards.

Congratulations on your achievement! I encourage you to join us in honoring all of the 2017-18 Wisconsin School Health Award recipients, and to share your knowledge with other schools across the state. Supporting this initiative ensures more schools create an environment that enables students to achieve their full academic potential as well as supports them in developing healthful behaviors to last throughout their lives.

Sincerely,

Tony Evers, PhD
State Superintendent
